The screenshot shows the FAST2SMS Dev API interface. On the left is a sidebar with navigation links: Bulk SMS, DLT SMS, Quick SMS, Address Book, Delivery Reports, Transactions, Dev API (selected), Settings, and Help. The top header includes the FAST2SMS logo, account balance (₹50.00), and a navigation bar with links for 'How Developer API Works', 'Account Info', a clock showing 11:14:44 AM, a notification bell, a user profile icon, and the name 'Aiswarya.s'. The main content area has three tabs: 'Dev API', 'API Key', and 'Security'. The 'Dev API' tab is active and contains a form with the following fields: 'Message (NOTE: Per SMS cost ₹ 3.50)' with the value 'Hello'; 'Language' with 'English' selected (radio button) and 'Unicode' as an option; 'Flash Message' with 'No' selected (radio button) and 'Yes' as an option; and 'Contact' with the value '9384193377'. To the right of the form is a black box with white text showing the generated GET request: `GET https://www.fast2sms.com/dev/bulkV2`. Below this, the query parameters are listed: `authorization = bn7luhid2XfDICTR40gyxQwHOEJaLs1KMcVWSG5jP68AzvkpetkV43C9ZmDSw0QhA2TXMOBfnlusUqKN`, `route = q`, `message = Hello`, `language = 'english'`, `numbers = 9384193377`, and `flash = '0'`. A chat bubble icon is visible in the bottom right corner.

This screenshot is identical to the one in Step 6, showing the FAST2SMS Dev API configuration page. The URL is: `https://www.fast2sms.com/dev/bulkV2?authorization=bn7luhid2XfDICTR40gyxQwHOEJaLs1KMcVWSG5jP68AzvkpetkV43C9ZmDSw0QhA2TXMOBfnlusUqKN&route=q&message=Hello%20&language=english&flash=0&numbers=9384193377`. All other elements, including the sidebar, header, and form fields, remain the same.

Step 8:

You will get the SMS in the new tab.
